ARTIST NAME, PHONE # AND E-MAIL: _____

ART FILES:

- We prefer native Illustrator or EPS files, however, we also accept QuarkExpress, Pagemaker, Freehand, and Photoshop files, (we recommend Photoshop for CMYK or monotone/duotone artwork only).
- Forward your art files and color proof to us via e-mail, our FTP site, CD-R, ZIPdisk, or carrier pigeon. (Proofs can be either digital files (PDF/JPG) or inkjet/laser prints.) Don't forget to send fonts and linked graphics if needed. (It's better to link a file than embed it!)
- Compress files into one archive file (Zip or Stuffit).
- MAC users: Name your files with DOS type names with the extension referring to the application or file type (i.e. "my great layout.ai" - "badass photo.tif").

COLORS:

Only use Pantone Solid/Spot Coated Colors or CMYK colors. (We do not recommend trying to color match CMYK disc and CMYK packaging artwork. Call for details.)

QUARK USERS:

Set template picture box fill color to NONE.
